**Notice**

CSIR-National Botanical Research Institute (CSIR-NBRI) is a premier plant research Institute, having a unique blend of expertise in classical and advanced plant sciences, supported with state-of-art laboratories and infrastructure. Under CSIR Integrated Skill Initiative, CSIR-NBRI has developed employment-oriented skill development programmes in its core competency areas for creating a pool of skilled human resource towards catering the manpower needs of plant-based industries. The following courses, each of at least 200 hrs. duration will be organized during January-March 2018:

1. Bioinoculant Producer for Agricultural Application
2. Modern Garden Technician
3. Plant Tissue Culture Technician
4. Quality Analysts for Herbal Industry
5. Phytochemicals Analysis Technician
6. Environmental Monitoring Technician
7. Soil and Water Testing Lab Analyst
8. Technician for Molecular Biology
9. Bioinformatics Technician.

The details of these non-residential courses, dates, course fee, and contact details can be seen from our website [www.nbri.res.in/sdp.php](http://www.nbri.res.in/sdp.php). The closing date of applications will be ten days before the commencement of the respective courses.
